

Dear Lully: I'm here 19th June 1914
The old lake looks like "The Deadwater" or old
"Sawford" Pond in Norwich with its ghastly
fringe of dead driftwood, and much
flat mud. I've been down & see them &
fish are very busy in consequence. They
have promised to look into the matter & come
up here & investigate following my visit.
There is much to tell, and I want to see you
just as soon as you get here and fill you up
with the straight. Your house is all cleaned
up tonight & open every day. Now the
"sand dig" - bridging out so he can float in
its 3 1/2 feet from water level to top of your
bank. When the water used to come up, hard comes in
