

at the view of the
that the Association was
Nov 16/13
Dec 8/13

Mr. [unclear] cooperation to receive your letter of protest in accordance with
from CE. Just you may be able to find among Board members records
that the same conveyed part of his property at the dam as a public highway.
Please to him that there seems to be disposition on Mr. Davis' part to adjust
this matter amicably to all concerned & hope it may so develop.

It is hardly possible that Weston would consider the water power at the outlet
valuable & even if he did it seems to me to be more valuable with a dam
which would give more fall than without the dam.

Like myself many of the opinion that the majority of the property owners would
prefer the lake restored to the old level with pickled them to change it to lower
levels or low levels.

I have written to all the members advising them officially of the desired
end of the dam and asking their responses & questions in order that the Assoc
may be guided as to the views of the majority. I have rec'd several responses the latest one

Received a letter from the Alder which rather surprised me in that he disavows
or repudiates the access thereto level. I wrote him that it was made in
accordance with our Bylaws by voting members at meeting of Aug 30/13.

In view of the fact that Alder in previous times has not attended before meeting
of the Ass. that being the president of the organization since 1907, this alone
may be accountable for his not knowing that the access was legal. However
I remember that the matter was brought up in conversation at the time he was with
Mr. Walker & the Committee, when we asked the question what the protest was
concerned with would be. At present writing 11 of the 12 members
paid their assessments being about 70% & have sent the remaining
5 will respond. The money for assessments will be sent out
in my hands as usual. I will be pleased to hear from you
further as matters develop regarding the matter of the dam -
With couple of seasons you & your family I remain
Yrs. Cordial Serv
S. L. P. O. A.

Inclosure for dues with thanks
