

Dear Latty:

June 15/13

Lauson just sent me  
the application for trout  
fry - fingerlings duly signed  
and sworn Mr. Bean about  
getting 3000. and also about  
settlement of pheasants & their  
eggs. Lauson will "set them"  
& liberate along his ledges.

Great place I think you all can  
wade, & feed them in winter.  
Buck has a lot around there in  
Crown Point & we saw them down  
at foot of Eagle Lake last summer.

I have asked for blank for  
all our com. Com. Spare.  
Now Ed. you take up the fishway  
problem, in your characteristic way  
write to Bean about our trouble  
& that Trully Bellows will do all  
aid our lake - He knows all  
about it. Write him freely & say

loss of fish this season as 65 hours rain fall is reported

write. If way were open we could chop in

that you are trying to  
get the ferryway part along.  
And we must have it or  
our supply will bail. for lack  
of adult fish.

Tell Bear that we will  
come to Baldwin in an  
auto next summer & take him  
up over Sunday from his  
Lake George bungalow. We want  
him to see our region & the  
source of lakes from Old Stiff Mt.

I am sure Mr. Rump, Judge  
Joss would do all in their power  
to maintain this State fishery.

The nets is of course intended.  
Let us have a regular day of it next  
year. about Aug 15. Ticonderoga Inn  
Club (Kury & X) & Et. P.O. Am - With a  
dinner and dance in eve at  
Holes.

I am in hopes that you will yet  
get a double-bass wal so we can  
make up a little string band for our  
Wm. the show of 1913 - Pullman & I play  
wayside with a 3rd & 4th flute & I have

We are in the regular  
Syracuse museum clean now  
in last three cabinet repairs by Perry Street

"De Stow's" Bear  
my guitar now in fine shape
