STANDARD CONDITIONS

1. In executing this permit you (and your agent) must obey all Federal, State and local laws and ordinances governing such actions (e.g., firearms discharge, trap-setting and trap-tagging requirements) and obtain any additional permits as required.
2. This permit does not authorize you or your agent to trespass.
3. You must first obtain permission from the landowner for you and/or your agent to go on land you do not own to execute this permit.
4. This permit may be renewed or revoked at any time by the Department.
5. You (and/or your agent) must carry a copy of this permit while executing this permit.
6. When removing a beaver dam, water levels above and below must be equalized by slow and partial breaching before the entire dam is removed.

SPECIAL CONDITIONS FOR DEER AND BEAR

NOTIFICATION: The local Environmental Conservation Officer (ECO) must be notified about the disposal of deer taken under this permit. If local or adjoining ECO cannot be reached, the Regional Law Enforcement Officer shall be notified (Monday thru Friday 8:30 a.m. to 4:30 p.m.).

Within 48 hours after the expiration of this permit, the permittee must notify the Regional Wildlife Office of the actions completed. Failure to do so may preclude the issuance of future permits by the department.

HANDLING: All deer taken must be field dressed.

Chief Permit Administrator	William R. Adriance	625 Broadway, Albany, NY 12233-1750
AUTHORIZED SIGNATURE	<i>William R. Adriance</i>	DATE 07/14/2006

SPECIAL CONDITIONS

- Water levels within the beaver impoundment shall be lowered no more than _____ feet below the existing top of the dam as specified during the on-site inspection by Division of Fish and Wildlife personnel.
- Disturbances to the beaver dam shall be limited to the minimum necessary to lower the impoundment. Disturbances to other portions of the protected stream or wetland are prohibited.
- If the Authorized Activity does not indicate an authorization for the use of machinery, all work must be undertaken using hand methods only.
- If the Authorized Activity allows the use of machinery, the bed or banks of the stream must not be disturbed during dam work. Machinery shall not be allowed in the stream or on its banks, where it may cause the bank to collapse. All machinery used for dam work shall be rubber-tired, unless done from an existing roadway.
- When modifying the beaver dam, water levels must be lowered gradually by slow and partial breaching.
- Any fish remaining in the dewatered area shall be returned to the stream, lake or wetland.
- All excavated beaver dam material shall be disposed of at an upland site outside the wetland and be suitably stabilized so that it cannot re-enter any waterbody, waterway or wetland area.
- All activities authorized by this permit must be in strict conformance with any approved plans submitted by the applicant or applicant's agent as part of the permit application.

continued other side

9. The permittee is responsible for supervising this project, and shall ensure that all necessary measures are employed to prevent environmental degradation and to ensure successful mitigation.
10. The State of New York shall in no case be liable for any damage or injury to the structure or work herein authorized which may be caused by or result from future operations undertaken by the State for the conservation or improvement of navigation, or for other purposes, and no claim or right to compensation shall accrue from any such damage.
11. If future operations by the State of New York require an alteration in the position of the structure or work herein authorized, or if, in the opinion of the Department of Environmental Conservation it shall cause unreasonable obstruction to the free navigation of said waters or flood flows or endanger the health, safety or welfare of the people of the State, or cause loss or destruction of the natural resources of the State, the owner may be ordered by the Department to remove or alter the structural work, obstructions or hazards caused thereby without expense to the State, and if, upon the expiration or revocation of this permit, the structure, fill, excavation or other modification of the watercourse hereby authorized shall not be completed, the owners shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may require, remove all or any portion of the uncompleted structure or fill and restore to its former condition the navigable and flood capacity of the watercourse. No claim shall be made against the State of New York on account of any such removal or alteration.
12. All necessary precautions shall be taken to preclude contamination of any wetland or waterway by suspended solids, sediments, fuels, solvents, lubricants, epoxy coatings, paints, concrete, leachate or any other environmentally deleterious materials associated with the project.
13. There shall be no unreasonable interference with navigation by the work herein authorized.
14. If upon the expiration or revocation of this permit, the project hereby authorized has not been completed, the applicant shall, without expense to the State, and to such extent and in such time and manner as the Department of Environmental Conservation may require, remove all or any portion of the uncompleted structure or fill and restore the site to its former condition. No claim shall be made against the State of New York on account of any such removal or alteration.

GENERAL CONDITIONS

1. The permitted site or facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the permittee is complying with this permit and the ECL. Such representative may order the work suspended pursuant to ECL 71-0301 and SAPA 401(3).

The permittee shall provide a person to accompany the Department's representative during

an inspection to the permit area when requested by the Department.

A copy of this permit, including all referenced maps, drawings and special conditions, must be available for inspection by the Department at all times at the project site or facility. Failure to produce a copy of the permit upon request by a Department representative is a violation of this permit.

2. Issuance of this permit does not modify, supersede or rescind any order or determination previously issued by the Department or any of the terms, conditions or requirements contained in such order or determination.
3. The permittee must submit a separate written application to the Department for permit renewal or modification of this permit. Such application must include any forms or supplemental information the Department requires. Any renewal, modification or transfer granted by the Department must be in writing.

NOTIFICATION OF OTHER PERMITTEE OBLIGATIONS

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification

The permittee, excepting state or federal agencies, expressly agrees to indemnify and hold harmless the Department of Environmental Conservation of the State of New York, its representatives, employees and agents ("DEC") for all claims, suits, actions and damages, to the extent attributable to the permittee's acts or omissions in connection with the permittee's undertaking of activities in connection with, or operation and maintenance of, the facility or facilities authorized by the permit whether in compliance or not in compliance with the terms and conditions of the permit. This indemnification does not extend to any claims, suits, actions or damages to the extent attributable to DEC's own negligent or intentional acts or omissions, or to any claims, suits or actions naming the DEC and arising under Article 78 of the New York Civil Practice Laws and Rules or any citizen suit or civil rights provision under federal or state laws.

Item B: Permittee's Contractors to Comply with Permit

The permittee is responsible for informing its independent contractors, employees, agents and assigns of their responsibility to comply with this permit, including all special conditions while acting as the permittee's agent with respect to the permitted activities, and such persons shall be subject to the same sanctions for violations of the Environmental Conservation Law as those prescribed for the permittee.

Item C: Permittee Responsible for Obtaining Other Required Permits

The permittee is responsible for obtaining any other permits, approvals, lands, easements and rights-of-way that may be required to carry out the activities that are authorized by this permit.

Item D: No Right to Trespass or Interfere with Riparian Rights

This permit does not convey to the permittee any right to trespass upon the lands or interfere with the riparian rights of others to perform the permitted work, nor does it authorize the impairment of any rights, title or interest in real or personal property held or vested in a person not a party to the permit.
