Mrs. Esther Herbst, President  
Eagle Lake Property Owners' Association  
1563 Bradley Blvd.  
Schenectady, New York 12304

Dear Esther,

As you will remember, at last year's annual meeting we had Victor Putman, the man in charge of the sewer study for Essex County, tell us about their plans. During the summer, tests were run by him on all the houses where there was no road access, as well as selected properties where there was access. Graham Davis assisted Mr. Putman with the latter tests. No problems were uncovered, although there were a few properties where the tests could not be taken, even though it would have been desirable.

In any event, Mr. Putman asked me for a mailing list so that he could circularize our property owners when the County's results were ready to be made public, so that they could come to a public meeting to discuss them.

Yesterday I received the labels back from Mr. Putman with a letter of explanation. I am enclosing a copy. Interestingly, he sent a copy of his letter to the man who has been retained by the Town of Ticonderoga, which will enable the Association to open direct communication with him.

I think that you might want to discuss the next step with your Executive Committee. As I do not remember who is the new Secretary, I am sending copies of this only to those Board members I remember.

Sincerely,

Robert C. Stevens
